# Affordable high impact color.

You need black and white, but you'd like to add color. Now they're both available in a compact size at a sensible price, thanks to the new e-STUDIO407cs series from Toshiba. Copy, print, scan and fax with the MFP that does it all, for less.

## Your MFP has arrived.

Small and medium sized businesses, from healthcare to education to finance, can now take advantage of everything Toshiba MFPs have to offer, in a surprisingly small package. The new e-STUDIO407cs series prints black and white or color at speeds of up to 42 ppm for letter size paper and 34 ppm for legal size. It incorporates leading LED technology that reduces the overall size and simplifies the design. An e-BRIDGE Universal Print Driver, the single driver for all Toshiba e-BRIDGE series models, includes plug-ins for the simple addition of a variety of productivity enhancing options.

## Compact, powerful, and groundbreaking.

A long list of impressive features and benefits are available on the e-STUDIO407cs series. Toshiba e-BRIDGE technology provides consistency across our family of MFPs. After you've learned one, you can operate many. You'll find the same operability, user interface, open platform connectors, cloud and mobile printing and scanning, and management utilities

as the current e-BRIDGE lineup. It features a small footprint, light weight and quiet operation. Maintenance is simpler than ever because of replacement units that can be easily installed by anyone. The color output is incredible, with enhanced image quality and vivid, glossy colors.

**e-STUDIO™ 287cs/347cs/407cs**

# Exceptional features, starting with e-BRIDGE.

The outstanding performance of the e-STUDIO407cs series is due, in large part, to advanced e-BRIDGE technology. This Toshiba e-STUDIO series is available for small and medium sized businesses looking for affordable color. The list of features is impressive, including Universal Print Drivers with plug-ins, web browsing and printing, open platform connectors and mobile printing. Additional features and benefits include:

#### Compact, lightweight, and packs a punch

This powerful, compact letter and legal sized device saves space and money, offering one of the smallest footprints among comparable MFPs.

#### LED printhead

An innovative LED light source for printing results in low noise, easy maintenance and a smaller, more compact size.

#### Impressive image quality

Get attention-grabbing gloss output with a greater range of colors. An optional e-BRIDGE Color Profiler and spot-on color matching can help you create output that's even more impactful.

#### High performance print engine

A technologically advanced, high performance print engine allows for a faster warm up and First Copy Out Time. Not to mention an overall

energy reduction to help the environment and your budget.

#### Easy to use

Now it's easier than ever to operate an MFP. Thanks, in part, to a nine-inch display consistent with other Toshiba devices, hard keys or buttons used for main functions, and an e-BRIDGE Open Platform for flexible integration.

#### Easy to maintain

Replacing supplies and performing routine maintenance are simple and can be performed by virtually anyone, reducing the need for a service call.

#### Plenty of options

Choose from a variety of options to take greater advantage of the e-STUDIO407cs series. Like a space-saving inner finisher, 2000-sheet LCF or 4-drawer configuration, Job Point for cluster printing with up to 10 e-STUDIO models, Re-Rite for one-touch automatic OCR as well as a Fax Unit, Wireless LAN Module, and IPSec Enabler.

#### And that's not all

The list of outstanding features goes on and on. In fact, it goes something like this: Job Skip allows you to skip to the next job if one job runs out of paper or toner. Omit Blank Page removes all blank pages from all jobs. Outside Erase lets you copy or scan books and 3D objects with the RADF open. Envelope Printing can be done straight from the bypass. One Touch Templates automates complex or frequently repeated jobs. Standard Tandem Printing completes large jobs faster by dividing the work between two printers. And e-Filing lets you print, edit and manage stored documents.

#### Managed Print Services

Look to our highly experienced Managed Print Experts to help you cut costs, streamline operations, control your output environment, secure documents, and reduce your environmental impact.

# Leading innovation in high security.

Data has never been more secure. The e-STUDIO407cs series incorporates proprietary Toshiba technology in a number of ways to provide a level of data protection for IT equipment that sets a new standard.

## Security matters.

With the need for data security at an all-time high, Toshiba's leading, innovative technology is at the forefront. Our proprietary Self-Encrypting Drive (SED) uses unique Wipe Technology along with a host of other security functions to protect data like never before. If anyone takes the Hard Disk Drive (HDD) from the MFP and attempts to install it into another device, all of the data is automatically erased. If the HDD is removed and then returned to the same MFP, the data remains intact and can be accessed as usual. There's an encryption key that is safely stored on the HDD. In addition, HDD data is quickly invalidated at end of life so you don't have to worry about that, either.

## Keeping your data safe.

To provide even more security, Toshiba has included a secure PDF encryption feature with up to 128-bit AES, IP/MAC address filtering, Role Based Access Control, an SNMPv3 protocol for enhanced security administration and an optional IPSec protocol. There is also a Private Print feature that requires a password for printing. Thanks to all of the advanced security features, the e-STUDIO407cs series is the highest security level.

**secureMFP™**

- Self Encrypting Drive
- IPSec Enabler (optional)
- IP Filtering
- Network Port Control
- Secure PDF
- Private Print

Not only can you perform multiple functions with ease, everything you do is protected with advanced security measures.

# Technologically advanced, environmentally sound.

Toshiba began developing innovative ways to reduce environmental impact long before it became the popular thing to do. In addition to a smaller footprint with regard to size, the e-STUDIO407cs series also has a smaller ecological footprint.

## Protecting precious resources in more ways.

While Toshiba is working to help save the environment, we're also helping you save money. The e-STUDIO407cs series uses a mono-component development method that eliminates waste material. An enhanced Sleep Mode has a 1.5 W power consumption to further reduce energy usage. Other ways in which Toshiba puts environmental responsibility into action include a recycling program, reduction of CO<sub>2</sub> emissions, and the recycling of plastics. Reduction or elimination of hazardous materials such as lead and mercury enable the series to comply with environmental standards around the world. Everything together qualifies the series for the new Energy Star Tier 2 compliance.

## Green Matters.

From our zero-waste-to-landfill toner recycling to greener manufacturing, Toshiba is a recognized environmental leader. At Toshiba we're investing in programs that help both our business and yours to better reduce, reuse and recycle.

### Encompass Assessment and Green Report.

Toshiba's Encompass Assessment examines all output devices and determines your company's current environmental impact.

The data is delivered in a Green Report where we highlight easy solutions to support your environmental initiatives.

With a max capacity of 3,160 sheets there's no shortage of paper options including a 100-sheet bypass and optional 2000-sheet Large Capacity Feeder.

The e-STUDIO407cs series unique stacking drawers and spacers allow you to configure your device to fit your specific needs. From a countertop base model or up to three additional drawers and/or spacers as well as the space-saving inner finisher there's a configuration that's just right for you.

**Specifications**

Copying Process	Direct Electrostatic Photographic Transfer System with Internal Transfer Belt
Copying Type	LED Head Printing
Copy/Print Resolution	600/600 x 600/1200 dpi
Copy/Print Speed	30/30, 35/37, 42/42, PPM Color/B&W
Warm-Up Time	Approx. 60 Seconds
First Copy Out Time	13 Seconds
Max Duty Cycle	85K/100K/125K Copies
Multiple Copying	Up to 999 Copies
Acceptable Paper Size and Weight	Cassette: 8.5SQ to LG (17 lb Bond - 120 lb Index) Bypass: 3" x 5" to LG (17 lb Bond - 138 lb Index) 8.5" x 52" (17 lb Bond - 32 lb Index)
Memory (Max)	Main Memory: 2 GB HD: 160GB (Security SED Drive)
Document Feeder	100-Sheet
Reduction/Enlargement	25% to 400% (RADF: 25% to 200%)
Bypass	100-Sheet "Smart" Bypass (17 lb Bond - 138 lb Index)
Control Panel	Color 9" LCD Touch Panel
Paper Supply	Up to 3,160-Sheet Input Capacity Standard 1 x 530-Sheet Cassettes 100-Sheet Bypass Optional 3 x 530-Sheet Cassette Optional 2000-Sheet LCF
Duplex	Std. Automatic Duplex Unit (17 lb Bond - 120 lb Index)
Dimensions	Approx. 20.6" x 23.8" x 31.9" (W x D x H)
Weight	Approx. 112.4 lb
CMYK Toner Yield	CMY: 11.5K, BK: 15K
Power Supply	120 V, 8 Amps
Power Consumption	Maximum 1.5 kW

**Print Specifications**

PDL Support	PCL6 and PostScript 3, XPS
Operating Systems	Netware 6.5, Windows XP, Vista, 7 Windows Server 2003, 2008, 2008R2, 2012, Citrix XenApp6.5, Macintosh, Linux, UNIX, AS400, SAP
Protocol Support	IPX/SPX, TCP/IP, AppleTalk NetBIOS Over TCP/IP, LPR/LPD, IPP, SMB, SNMP, Netware, Port 9100,
Drivers	Server 2003/2008/2008R2, 2012, Windows XP, Vista, 7, 8, Macintosh 10.4, 10.5, 10.6, 10.7, 10.8, AS400, LPR & Port 9100, SAP R/3, Unix Filter
Connectivity	10/100/1000BaseTX Ethernet , 802.11b/g/n
Device Management	TopAccess
Certification	Windows (XP, Vista, 7, 8, 2003, 2008, 2008R2, 2012) (WHQL) Novell HPOS (Dazel), Citrix

**Scan Specifications**

Scan Resolution	100 dpi, 150 dpi, 200 dpi, 300 dpi, 400 dpi, 600 dpi
Scan Speed	40 SPM Color / 40 SPM B&W (@ 300 dpi)
File Format	TIFF, PDF, Secure PDF, JPEG, XPS

**Facsimile Specifications**

Compatibility	Super G3
Data Compression	MH / MR / MMR / JBIG
Transmission Speed	Approx. 3 Seconds Per Page
Fax Modem Speed	33.6 Kbps
Memory Transmission	Yes
Scan Speed	Maximum 40 SPM

**E-Filing Specifications**

Operation Method	Color Touch Screen Control Panel or Client PC
Number of Boxes	1 Public Box, 200 Private User Boxes
Capacity of Boxes	100 Folders Per Box, 400 Documents Per Folder 200 Pages Per Document

**Security**

Data Encryption & Disk Overwrite Authentication	256 Bit AES (SED Hard Drive) LDAP, SMTP, Windows Server Domain, Local
---	--

**Accessories (Options)**

<b>Additional Paper Options, Spacers, Caster Base</b>	
Spacer: (For adjusting machine height replacing a stand)	GR1160
Caster Base: (Caster base for PFU, LCF or Spacer)	GR1170
Cassettes: 530-Sheet Pedestal, 8.5SQ to 14LG	MY1045
Large Capacity Feeder (LCF): 2,000-Sheet Drawer, LT, 13LG, 13.5LG, 14LG, A4	KD1040

**Finishing Options**

Inner Finisher:	MJ1038
Staple Type: 1 position	
Staple Capacity: 50 Sheets (LT/20 lb) 30 Sheets (LG/20 lb)	
Tray Capacity in Staple Mode: LT-20 Sets or 2.8"	
1 Tray: 500 Sheets	
Offline Stapler:	MJ1039
Staple Type: 1 position (corner)	
Staple Capacity: 20 Sheets (LT/20 lb)	
Damper Kit (Required for MJ1038)	KK1002

**Connectivity/Security Options**

Fax Board	GD1340
Wireless Module	GN1060
Wireless Antenna	GN3010
Meta Scan Enabler for e-CONNECT	GS1010
IPSec Enabler	GP1080
Advanced Scanning (ReRite)	GB1280V8
SharePoint Connector	GB1440
Exchange Connector	GB1450
Google Docs Connector	GB1540
